Create Your Tomorrow, Today

Success today requires resiliency, reinvention and thinking ahead. Bring the future into focus at Oracle OpenWorld. Gain enterprise expertise and start-up ingenuity directly from experts across retail, manufacturing, financial services, technology, the public sector, and more. Join innovators as they challenge assumptions, design for better outcomes, and leverage transformational technologies to create future possibilities now.

- Insight wins.** Data is the lifeblood of business. Harness it and you gain competitive advantage; fail, and you risk being swamped by the data explosion. Success requires a data-driven culture, and leveraging a next-generation infrastructure and solutions to make that vision a reality.
- The future is autonomous.** Artificial intelligence and machine learning are driving changes in the workforce, the competitive landscape, and society at large. The organizations that harness the power of these technologies now will be at the forefront of the next wave.
- Speed matters.** With the velocity of business, the faster you learn, the faster you succeed. Explore how to accelerate your business to increase agility and out-innovate the competition.

Explore tomorrow, today. Think ahead at Oracle OpenWorld Europe.
